# Model:RCT035

## Characteristics:

Current can measure fast response speed in real time,Almost unsatisfactory, no phase difference,Applicable to power analysis,power detection,current measurement accuracy, Industral meter,relay protection,welding,electroplating

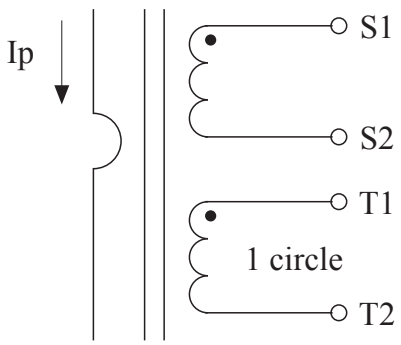

## Technical index:

Temperature Coefficient：0.05%/℃
Flame retardant properties：UL94-V0
Operating temperature：-25℃～+70℃
Band width：1Hz-1MHz
Accuracy：±0.3% Reading accuracy(5% to 150% FS,25℃)

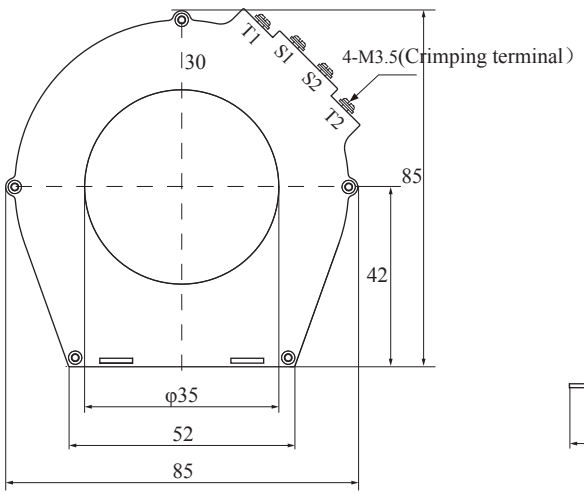

## Electrical parameters:

| | | |
|---|---|---|
| Rated current | 200-4000 | A |
| Full range output | 0.333 | Vrms |
| Overload capacity | 300% | FS |
| Phase difference | 90±0.1℃ | |
| Warm ticket coefficient | 0.05%℃ | |
| Weight | | g |
